

National Long Course Rankings for 2008

British Swimming National Long Course Rankings are based on times obtained in 50m pools. They include National, District and County events as well as licensed open meets and results from international fixtures where possible. There may be times, which have not been included from these meets where the swimmers name and/or the date of birth have not matched with our National Registration database. Those swimmers who have applied to become dual registered are recognised as such. To ensure inclusion in these lists it is imperative that swimmers enter events with the name shown on their National Registration card, if this is incorrect, please contact the ASA Registration department (01509 618727) for amendment. It is the responsibility of the Meet Manager to send the relevant information, in the correct format, to the British Swimming Rankings office for the inclusion in these lists. Please note that if a top five listing was not possible for any given event, then that event does not appear in these rankings.

Meets included in these rankings:

Meet Names

Licensed Meets

Meet Number and Name	Venue	Date
