

## Amateur Swimming Federation of Great Britain Ltd.

### National Long Course Rankings 2001

ASFGB National Ltd Long Course Rankings are based on times obtained in 50m pools. They include National, District and County events as well as designated open meets and results from international fixtures where possible. There may be times which have not been included from these meets where the swimmer's name and/or the date of birth have not matched with our National Registration database. Those swimmers who have applied to become dual registered are recognised as such. To ensure inclusion in these lists it is imperative that swimmers enter events with the name shown on their National Registration card, if this is incorrect, please contact the ASA Membership Services Department for amendment. It is the responsibility of the Meet Manager to send the relevant information, in the correct format, to the ASFGB Rankings office for the inclusion in these lists. Please note that if a top five listing was not possible for any given event, then that event does not appear in these rankings

#### Meets included in these rankings:

##### Meet Name

##### Venue

##### Date

#### Designated Meets
