AGRI DI FRANCO COCCHI

Eighty years have been passing since 1923, when the Italian Powerboat Federation has been constituted - according to the By Law - by sport Associations and other sport organizations that all practice powerboating at professional level but in a no-profit scheme.

The Italian Powerboat Federation, with legal site in Milan, organizes, coordinates and rules its five competitive specialities (Circuit, Offshore, Aquabike, Endurance and Radio-controlled). Moreover, the new "Young - promotional category- Formula Future" has been recently added to this latter, with the main purpose of finding new pilots and enlarging its potential users.

The activity of the Federation is carried out on throughout the whole Italian territory, and more than 50 National, European and Worldwide Championships' races are run each year in the most beautiful Italian venues, especially those ones closer to the main urban centres with a particular touristic "charme".

Moreover, the Italian Powerboat Federation develops touristic, pleasure study activities in compliance with all the rules and possibilities provided by the Italian laws and regulations, it promotes the growth of federal athletes and coaches and organizes - always in compliance with the law - all the activities focused on the achievement of the necessary driving licences for races and pleasure navigation boats.

The Italian Powerboat Federation has an its own internet web site www.fimconi.it, where it is possible to find all the news related to the federal and competitive activities.
