## RAVENNA RACEFIELD

### 106.02 – WATER REGISTRATION

As requested by the UIM 2008 Circuit Rules, please find here attached the documentation required to get the International authorization to run the Formula Future World Championship that will take place in Italy from 18<sup>th</sup> to 20<sup>th</sup> July at the canoeing water course "Centro Standiana", via Provinciale Standiana, 35 in Savio (RAVENNA).

Replies to the required questions:

A – racefield scale 1.500 (see copy attached)

- a) minimum depth 3 m., maximum depth 6 m.
- b) position of the floats exactly as the courses indicated by the UIM 2008 Circuit Rules pages 136-137-138-139-140 and 141;
- c) race finishing position by fixed photo-finish with control from the departure/arrival tower;
- d) departure position from the departure/arrival photo-finish line
- e) race departure direction towards north;
- f) there are no further obstacles along the racefield;
- g) there are no floats of any kind apart from those authorized for the courses;
- h) as far as the control positions are concerned, besides the photo-finish with the presence of Officers in a fixed position, Officers near the buoys are foreseen for a better control;
- i) the entering in water of the drivers is foreseen in front of the tribunes for public through a fixed pontoon;
- j) the control area where the rubber boats are moored is situated near the fixed pontoon in front of the tribunes for public ahead of the arrival tower;
- k) spectators stay on a fixed covered tribune (fitted for 1000 people) and possibly on a fixed uncovered tribune next to the covered one;
- l) the position of the ambulance has been provided near the service exit at the end of the tribunes with direct passage to the fixed pontoon at water level;
- m) no;
- n) altitude of the venue is 0 m.;
- o) requested pictures are coloured and here attached;
- p) //;
- q) the world championship is reserved to category FUTURE;
- r) participants for each class are always two athletes for each time and for each race;
- s) as far as the question of the noise level of the engines is concerned, there is no problem because in FUTURE category small rubber boats are used.
